	Produce remainder of 23A Modified Gravel by 8/07/21					
<b>Miscellaneous</b>						
	Submitted Pit Management Plan (Yes/No)			Yes	No	Yes
	Submitted Stockpile Plan (Yes/No)			Yes	Yes? (Very basic)	Yes
<b>Remarks</b>						
				Detailed Plans were provided	Doesn't meet bid requirements	Need on-site meeting w/ the MCRC to discuss the proposed mining and stockpiling and best direction and use of the pit ASAP in the Spring.
				Pit Plans from 2018 will be followed except will screen weak banks of material to obtain full utilization of the resources.	Stockpiling with two 980G Cat Loaders	No grubbing or clearing of trees is included.
				Drilling rig is included to verify materials		Clay will be used from on-site or hauled from the Manistee Arcadia Pit.
				Separated production into a 2 year operation for more time to fully utilize all of the available resources and they are doing this in other pits due to lack of resources.		
				May be able to produce some gravel sooner than the dates shown but cannot guarantee it.		
				Increase in price is due to pit condition and what it will take to make sure that all materials are recovered and utilized.		
Bid Tabulation By: Mark Sohlden		Date: 3/02/21		<b>The Year 2021 gravel production was awarded to Halliday Sand &amp; Gravel during the Manistee County Board of County Road Commissioners regularly scheduled board meeting on March 10, 2021</b>
